

February 07, 2019

Dear Stakeholder,

Thank you for your on-going support of Azzule's GFSI Benchmarked scheme, PrimusGFS. As a stakeholder, we want to personally invite you to participate in the PrimusGFS v3.1 consultation review period. During the 3.0 implementation, we gained valuable feedback from, indoor agricultural operations, Certification Bodies, Training Centers, and from industry experts at-large. Azzule believes strongly in serving the needs of the various groups with which we work, and so, we have tried to address your comments and suggestions in v3.1. Additionally, this new version will continue to provide data-driven results to users of the audit, information that can be enhanced by utilizing the Azzule Data Management Platform.

We are asking if you can read through the proposed changes and submit feedback and suggestions with the document **PrimusGFS v3.1 Stakeholder Review** provided at our group email address: PrimusGFS@azzule.com by March 11, 2019. The changes are set up in an excel.xlsx file type with the new text appearing in red.

During this consultation period, we hope you might offer feedback concerning all proposed changes that are of interest to your organization's functions or needs. Additionally, we are continuously accepting feedback regarding developments to PrimusGFS and systems within the Azzule Data Management Platform (i.e. PrimusGFS, Azzule Auditing Software, Azzule Supply Chain, PrimusLabs LIMs) that may have significance or might be needed by your organization in complying with FDA Food Safety Modernization Act, Safe Food For Canadians Regulations, Service Providers, Customers, etc.

We look forward to working with you during this review period. Please do not hesitate to contact us via email at PrimusGFS@azzule.com or by telephone if you have any questions or concerns.
